

Mackworth

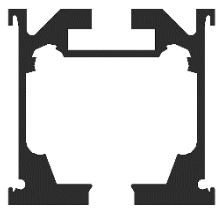

TX600 Fixed Ceiling Lift

Track Configurations

The Mackworth TX600 is available in different configurations dependent on track profile. The track profiles are shown below:

Type 1

Type 2

Type 3

Type 4

Type 5

The hoist is also available with both powered traversing or manual traversing options. Listed below are the options available along with the part code.

Part Number	Description
122000	TX600 (Type 1 Track & Powered Traverse)
122200	TX600 (Type 1 Track & Manual Traverse)
122400	TX600 (Type 2 Track & Powered Traverse)
122402	TX600 (Type 3 Track & Manual Traverse)
122403	TX600 (Type 3 Track & Powered Traverse)
122404	TX600 (Type 4 Track & Manual Traverse)
122405	TX600 (Type 4 Track & Powered Traverse)
122406	TX600 (Type 5 Track & Manual Traverse)
122407	TX600 (Type 5 Track & Powered Traverse)

Hoists are configured for specific track profiles at the point of manufacture, different size wheels and spacers are used as the inner dimensions of the track rails differ. Too loose fit and the hoist will 'crab' along the track and can cause difficulties when entering its charging dock. For this reason specific spacers and wheels are manufactured. The wheel, axle and spacer material used is constant throughout all variants. Wheel bearings are also identical as does the Soneil 2403SRM20 charger Unit.
